CENTRAL INTELLIGENCE AGENCY

-2-

25X1

- d. The ship has a fine large engine room with a 300 HP Wolf-Buckau engine. 300 HP is considered insufficient for sailing in the waters between Iceland and the Barents Sea, and luggers are to be equipped with engines of 500 HP; however, these are not yet available. The engine room of the 1 MAI also contains one 100 HP diesel engine, which delivers current to the winches, and another of about 25 HP for illumination.
- e. The funnel bears a white insigne on a blue ground. The insigne is a fish and the letters WHF (Vereinigung Volkseigener Betriebe Fischwirtschaft).
- 3. The captain of the 1 MAI stated heard of the installation of Decca, but had heard some talk of a possible installation of radar.

 Insecaptain expressed satisfaction with his new ship and praised its stability in particular.
